# GLASS ART

We are at VITRAN studio doing art glass in a variety of techniques.  
for public buildings and private houses.

Such as: fusing glass, stained glass and sandblasting glass art.

Fusing glass- melting in the kiln in various techniques:

Drawing with powders, glass stains, glass objects and more.

Drawing with powders, glass stains, glass objects and more.

# Stained glass art

Techniques: lead, tiffany and more.

The glass is specialized stained glass consisting of many colors and their combinations.

All hand-crafted glass and regular are processed in the kiln.

The shades of color come in a huge variety and different textures.

Both opaque and transparent.

Transparent stained glass in the windows lets the light inn, as well as the landscape.

In the right place this is a wonderful expression of art.

## Sandblasting glass art

Deep carving sandblasting glass  
with and without color and Glass sculpture.  
As there is on the wall and more.

stained glass art. 150 square meter- 30 tone weight in Paris.
